Metals & Mining Investment
Banking 101 - White, gray, pale
blue, pale green, pale yellow,
brownish green Pyrophyllite:
Pyrophyllite mineral information
and data. - Annivite: A Bi-rich
variety of Tennantite. Originally
described from and named for the
Anniviers valley (Val
d'Anniviers), Wallis, Switzerland.
This description, however, was
based on a wrong chemical
analysis. Tennantite: Tennantite
mineral information and data. -
